

Curbside Yard Waste Pickup

Biodegradable Paper Bags &/or Open Barrels may be used for curbside pickup of yard waste. These must be placed at least 8 feet away from regular trash containers and recycling bins on your regular trash collection day.

WHAT IS "APPROVED YARD WASTE":

Leaves, grass clippings, dead flower/vegetable plants, wood chips, hedge clippings, pine needles/cones and brush (cut or broken branches) 1" inch or less in diameter.

Brush should not protrude out of the top of bags/barrels, or be tied.

Branches 1" up to 4" in diameter may be put out with the regular refuse on collection day (they are not collected with curbside yard waste). Note: these branches are incinerated, not recycled.

- Must be cut in maximum 3' lengths
- Must be tied in bundles not to exceed 75 lbs. in weight or 24" in diameter.
- A maximum of 5 bundles may be put out per collection

Small quantities of unscreened composted material and wood chips are available free to residents. Home Composting Bins are also available for \$30.

Call (781) 274-8300 and choose #1 for more information.
