

ELECTRIC UTILITY AD HOC COMMITTEE

Members: 9
Appointed By: Board of Selectmen
Length of Term: Open
Appointed: As Needed
Meeting Times: As Posted

Description: The Committee is charged with evaluating the options available to Lexington to improve the reliability and reduce the cost of electrical service. The Committee shall evaluate all options available to the Town regarding improving the reliability and cost of electrical service with the understanding that Town Meeting has already provided some flexibility, if warranted, with the passage of Articles 37 and 42 at the Annual Town Meetings of 1996 and 1997.

In addition the Committee shall evaluate the performance of the current electric utility provider and its compliance with all state and federal statutes in relation to performance and service, and shall make all necessary recommendations to ensure future performance and compliance.

Criteria for Membership: Interest in and/or background, training and professional expertise in utility management and rate analysis.

Ref.: Charge adopted by Board of Selectmen on December 17, 2001.
Selectmen designated as Special Municipal Employees on January 18, 2006.
