B-19-434	Morteza Asgarzadeh	Additions - Residential	6/14/2019	33-235	8	WACHUSETT DR	Single Family	<p>903 square foot addition: The roof of the house needs replacement, and we anticipate requiring more living space in the coming years as our children grow. Our plan is to address both issues at once by adding one and a half stories to the house while renovating the roof. In doing so, we will reinforce the existing walls of the house by adding 2X6 wood to the existing 2X4s. I have examined the foundation of the house and a solid foundation footing exists. We plan to use the existing footprint of the house and have no plans to move the foundations to expand the house. The new one and a half stories will be unfinished space until we need the space and have funding available to finish it.</p> <p>Please let me know if you have any questions.</p>
