

Special Town Meeting-2020-2

Article 14: Wireless Communication Facilities

Why this change?

- Streamline permitting of wireless communication facilities to comply with FCC regulations
 - Remove requirement for special permit
 - Remove requirement for justification of need
 - Waive requirements which materially inhibit service
 - Replace case-by-case design review by DAC with design regulations adopted by Select Board
 - Modify rules for 'small wireless facilities' where necessary
- Facilities along public streets are regulated elsewhere
