

Town of Lexington

Special Town Meeting 2022-3

Article 10: Appropriate for Public Facilities Capital Projects (Town Pool Domestic Hot Water Heater)

The Select Board supports the installation of a non-fossil fuel solar powered domestic hot water heating system with heat pump back-up system for the Irving H. Mabee town pool complex restroom sinks and showers. This installation will not heat the pool water and will include the demolition of the existing system and all necessary soft costs required for the installation.

As of October 17, 2022, The Select Board supports the the passage of Article 10 with a yes vote of 4 members. One Select Board member will vote at their next meeting.
