

Town of Lexington Special Town Meeting 2022-3

Article 5: Appropriate for Community Preservation Projects

The Community Preservation Committee is recommending 1 project for supplemental funding at the Special Town Meeting:

Appropriate for Center Recreation Complex Bathrooms and Maintenance building

This is a supplemental funding request for the construction of the bathrooms and maintenance building at the Center Recreation Complex. Due to the impacts of the pandemic, construction costs increased dramatically and all bids received were higher than what was authorized at the 2022 Annual Town Meeting. There are no changes to the project itself.

As of November 1, 2022, The Select Board unanimously supports the passage of Article 5.
